Solution:

This P.O.P. will be used for the *Thot Bubble Ma(gay)zine* launch party at Pony on March 8th from 3:30pm-6pm. It will be placed right next to the door entrance to immediately call attention. With a colorful disco ball hanging over the door and the mini bubble mirrors on the side of the P.O.P, patrons will be immediately teleported into the world of Thot Bubbles with their image embedded in the history. From the front, the bright logo, colorful imagery, and contrasting magazine will catch people's eye. Above the P.O.P, the Pony Cowboy playfully has his own thots describing the magazine as "contemporary faggotry making love to queer history". The final side of the P.O.P subdues imagery and collage in black and white to make the structure look like it emerging from the walls of Pony.
